

*The Spotlight on the Arts Symposium aims to bring together art teachers /educators, students, government and representatives from various art stakeholders from across Quebec.*

*Our keynote speaker, live student performances and workshops (Méthode mnémorique pour redécouvrir l'oeuvre d'art by Guy Giard, Learning Through the Arts: Religion-Tolerance and Mutual Respect by Deirdre Potash and Developing Musical Competences through Rhythm by Shawn Mativetsky) will inspire and support your classroom work. Panel discussions, round-table sharing sessions and presentations by community art organizations will inform you of art resources available for your school anywhere in Quebec.*

*We invite all art teachers/educators to attend and take advantage of this unprecedented initiative that allows us the opportunity to come together as an artistic community within Quebec's ten English School Boards.*

*Culture in the school matters - together we can make it better!*

*Brought to you by: QPAT and representatives from DEEN sub-committee on art, MELS, LEARN and QMEA.*
